

JEM 7-series Monitors– The Investment

The JEM 7-series all have the same thick walled inert cabinet made out of solid materials. A very rigid platform that allows its drivers to deliver the music against a deepblack backdrop. Low frequencies are rendered with the precision of a closed system but with the extension of a transmissionline. The cabinet is completely faceted to maximize stereo imaging capabilities. The cabinet and many other parts are all handmade in my own workshop and available at JEM Design only.

M7s Reference monitor

My reference in high definition, neutrality and range. RAS™ technology. Time alignment technology. SEAS Excel 6.9 inch Magnesium woofer, Accuton 25mm Corundum tweeter. Paper in Oil capacitors, oil-damped MKP's and Copperfoil inductors. User adjustable tweeter level (standard 0, +1 and+2dB) Efficiency 86dB/1W @8 Ohm.

	Price/pair	
- Solid wood Walnut	€ 11.800,-	
- Solid wood Eucalyptus or Hevea	€ 10.800,-	
- Black IHMC™	€ tba	--- in development ---
- Elephant Grey IHMC™	€ tba	--- in development ---
- Tweeter attenuation expansion set 1dB (available: -2, -1, +3 +4 and +5 dB)	€ 140,-	

A7t Imaging monitor

Exceptional stereo imaging. Linear frequency response. Time alignment technology. RAS™ technology. SEAS 6.9 inch woofer, 26mm textile tweeter with double decompression chamber and solid aluminium waveguide. Inert Tin foil capacitors. Copperfoil inductors. Adjustable tweeter level (standard 0, +1 and+2dB). Efficiency 87dB/1W @8 Ohm. Upgradable to M7s Reference.

- Solid wood Walnut	€ 8.400,-	
- Solid wood Eucalyptus or Hevea	€ 7.400,-	
- Black IHMC™	€ tba	--- in development ---
- Elephant Grey IHMC™	€ tba	--- in development ---
- upgrade A7t to M7s Ref *	€ 3.400,-	
- Tweeter attenuation expansion set 1dB (available: -2, -1, +3 and +4 dB)	€ 140,-	

ST70 Zero

Zero Reflection stands for 7-series. Minimal frontal surface to retain imaging performance. Solid wood, industrial aluminium, stainless steel. Height 70cm. Interchangeble carbon feet with M8 fixation.

- Walnut -----	€ 2.400,-
- Solid wood Eucalyptus or Hevea-----	€ 1.900,-

JEM 4-series – The Investment

The JEM 4-series features a 1-inch thick walled cabinet made out of solid hardwood. The cabinets are faceted to maximize stereo imaging capabilities. The cabinet and other parts are all handmade in my own workshop and available at JEM Design only.

M4a mini monitor

Surprising full bodied sound reproduction. RAS™ technology. Time alignment technology. SEAS Excel 4.5 inch Magnesium woofer, SEAS 25mm Al-Mg tweeter. Film+foil capacitors in array, silver plated internal wiring. Efficiency 85dB/1W @8 Ohm.

Price/pair

- | | |
|-----------------------------------|-----------|
| - M4a Solid wood Eucalyptus | € 2.390,- |
| - dedicated stands 4-series black | € 290,- |

A4a mini monitor

Surprising full bodied sound reproduction. RAS™ technology. Time alignment technology. SEAS Excel 4.5 inch Al-Mg woofer, SEAS 25mm Al-Mg tweeter. Film+foil tweeter capacitors. Efficiency 85dB/1W @8 Ohm.

Price/pair

- | | |
|-----------------------------------|-----------|
| - A4a Solid wood Eucalyptus | € 1.790,- |
| - dedicated stands 4-series black | € 290,- |
| - upgrade A4a to M4a * | € 600,- |

A4z floorstanding d'Appolito

Surprising full bodied sound reproduction. High sensitivity. RAS™ technology. SEAS Excel 4.5 inch Al-Mg woofers, SEAS 25mm Al-Mg tweeter. Film+foil capacitors in array, silver plated internal wiring. Sensitivity: 88 dB @ 2,83V.

Price/pair

- | | |
|-----------------------------|-----------|
| - A4z Solid wood Eucalyptus | € 3.390,- |
|-----------------------------|-----------|

All amounts per pair and VAT included. Warranty 3 years.

* includes trade-in outgoing components
